

SP 450DN

The perfect, compact solution for challenging needs.

You demand high-quality in everything you do. The SP 450DN black and white A4 device will meet your business needs, enhance productivity, help you monitor print usage – and so much more. Its 40ppm output at 1,200 x 1,200 dpi is only the start of its capabilities, and it features a range of technology in a small footprint that's designed to be durable, flexible and reliable. And its 600,000 lifetime prints mean you can meet high-demand with first-class output, all with a lower up-front cost.

- Offers Streamline NX support, a suite of integrated, scalable document management applications and tools
- Supports mobile printing via AirPrint or Smart Device Print&Scan application
- · Handles standard office paper and thick paper types via any tray
- ECO friendly, low power consumption through Smart LED technology
- User-friendly with easy-to-read 4-line LED display panel

More options. More capabilities.

Compact, yet full of functionality.

Our technology is designed to make every function you need easily accessible. And we've designed this device with your goals in mind. The 4 line LED display panel gives you clear instructions and visual prompts, so you can focus on the task in-hand, and just get the job done.

Seamless mobile printing is here.

You can print images, documents and more using the Ricoh Smart Device Print&Scan app from your Apple iPhone, iPad and Android Smart Devices. All you need to do is download the app and be on the same network. Or if you're on iOS, you can print without installing the app too. It's really that simple.

Small footprint. Quality output.

Thanks to its LED print-head, this machine is more compact than devices with traditional laser technology. You can put it in a corner, or on a desk of your company or home office and it will take up minimal space. It can print on both thin and thick paper types, and print from any tray. Low-power consumption means your costs can be lower and it's ECO friendly too.

Optimise your workflow with Streamline NX.

This device can also work with Streamline NX, a powerful suite of scalable, integrated document management applications and tools. The combination of our hardware and software can help you realise operational cost savings and also help you support security, compliance and sustainability objectives.
