## **OPTIMISED PROTECTION TO THE IP68 STANDARD**

### **ALL OF OUR MODELS IN THE FIT WATCH SERIES ARE IP68-CERTIFIED.**

WHAT DOES THAT MEAN EXACTLY?

- The IP protection class defines the degree of the device's protection against the ingress of foreign bodies and water
- "IP" stands for "International Protection" and is an officially recognised European standard
- The first digit in the IP code defines the protection against the ingress of foreign bodies. Whereas 0 means "no protection", the number 6 means "dust-proof"
- The second digit in the code represents the device's resistance to water. Number 8 is the highest level achievable and offers protection against constant immersion
- The IP68 standard also offers protection against contact with tools, wires, etc. with a diameter of > 1 mm

---

» WITH OUR FIT WATCH  
SERIES, SWIMMING IS NO  
LONGER A PROBLEM!

## FEATURES AND TERMS

**Camera control via remote trigger**  
The Fit Watch triggers the smartphone camera remotely.

**Heart rate measurement**  
Time-specific or continuously for healthy and effective training.

**Sport modes**  
Allows various sport types to be selected for a precise analysis of results.

**Music control**  
Control music from the smartphone via the Fit Watch, e.g. Start/Stop, next track and previous track.

**Waterproof IP68**  
The Fit Watch is waterproof to the IP68 standard.

**Step counter**  
The number of steps are precisely counted - enabling you to keep a constant eye on your personal daily goal.

**Calorie consumption**  
The daily total sporting calorie balance is shown directly on the display and a detailed breakdown can be shown via the app.

**Stopwatch**  
Stopwatch function integrated into the Fit Watch.

**Battery life**  
Specifies the maximum battery life when the Fit Watch is used constantly.

**GPS even without a smartphone**  
Distances covered while jogging, cycling, etc. are recorded directly.

**Notifications**  
The Fit Watch's display shows a preview of the notifications arriving on the smartphone.

**Protection class**  
Specifies how protected the watch is against dust and water.
