

Safety Warnings / EU Declaration of Conformity - English

- Do not put the device in a place that is humid, dusty, has extreme temperatures, or that blocks the device ventilation slots. These conditions may harm your device.
- There is a remote risk of electric shock from lightning:
 - (1) Do not use the device outside, and make sure all the connections are indoors.
 - (2) Do not install or service this device during a thunderstorm.
- Connect only suitable accessories to the device; make sure to connect the cables to the correct ports.
- Do not open the device. Opening or removing the device covers can expose you to dangerous high voltage or other risks. Please contact your vendor for further information.
- Place connected cables carefully so that no one will step on them or stumble over them and disconnect all cables from this device before servicing or disassembling.
- Please refer to the device back label, datasheet, box specifications or catalog information for power rating of the device and operating temperature.

EU Declaration of Conformity

Hereby, Zyxel declares that the SURGEPRO-GE is in compliance with the relevant Union harmonization legislation. The full text of the EU declaration of conformity is available at the following internet address:

Disposal and Recycling Information

The symbol below means that according to local regulations your product and/or its battery shall be disposed of separately from domestic waste. If this product is end of life, take it to a recycling station designated by local authorities. At the time of disposal, the separate collection of your product and/or its battery will help save natural resources and ensure that the environment is sustainable development.
